# 10. Customizable Control Image

## 10.1 To customize icons / images:

1) make sure that your icons / images are in .gif format
2) name your icons / images same as the icons / images that you would like to replace.

e.g. if you would like to replace [icon] with [image], you will need to first rename your icon to table_background_default.gif and upload it to <yourStore2Go>/images/ directory through FTP.

- Please replace <yourStore2Go> with your own Store2Go location.

- The name of the default icons / images can be found by right clicking the icon and choose properties.

3) After you have successfully uploaded the pictures, you will see the change

## 10.2 To customize buttons:

1) Please make sure that your new buttons are in **.gif** format
2) **Create 3 directories** *English/images/buttons /* under <yourStore2Go>/images/ directory through your FTP account

**Store2Go**.ca
