

14. Customizable Control Image

14.1 To customize icons / images:

- 1) make sure that your icons / images are in .gif format
- 2) name your icons / images same as the icons / images that you would like to replace.

e.g. if you would like to replace  with , you will need to first rename your icon to table_background_default.gif and upload it to <yourStore2Go>/images/ directory through FTP.

- Please replace <yourStore2Go> with your own Store2Go location.

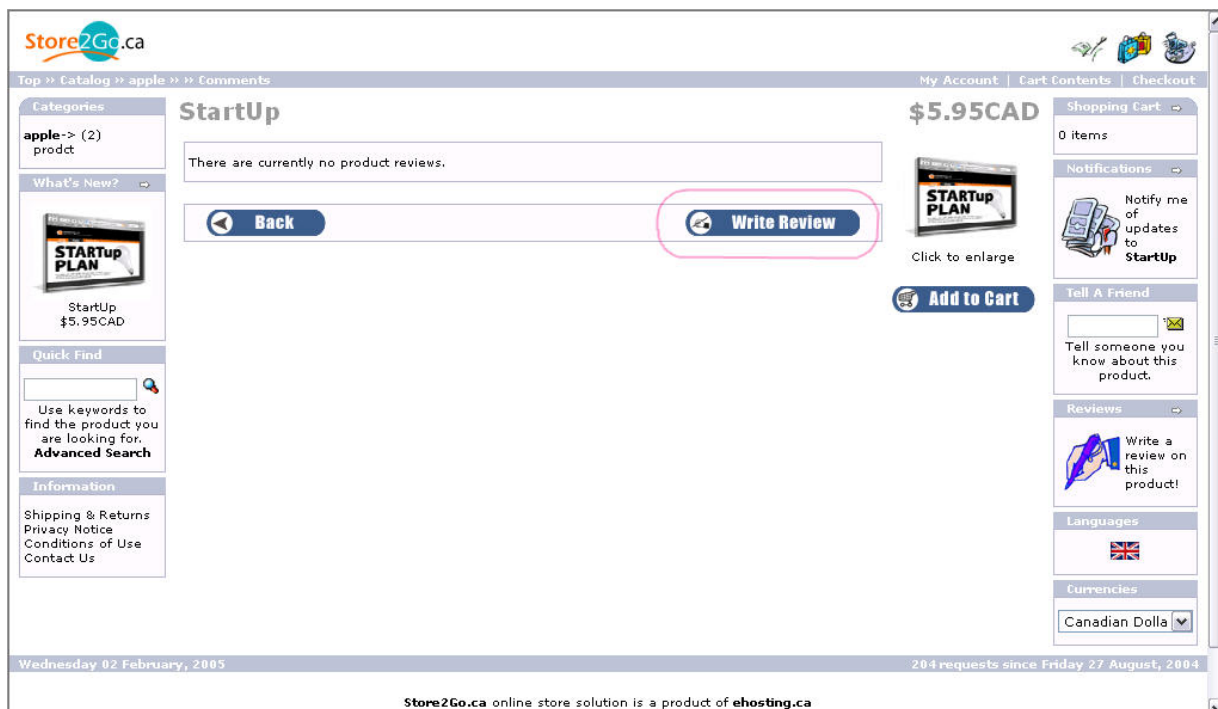

- The name of the default icons / images can be found by right clicking the icon and choose properties.

- 3) After you have successfully uploaded the pictures, you will see the change

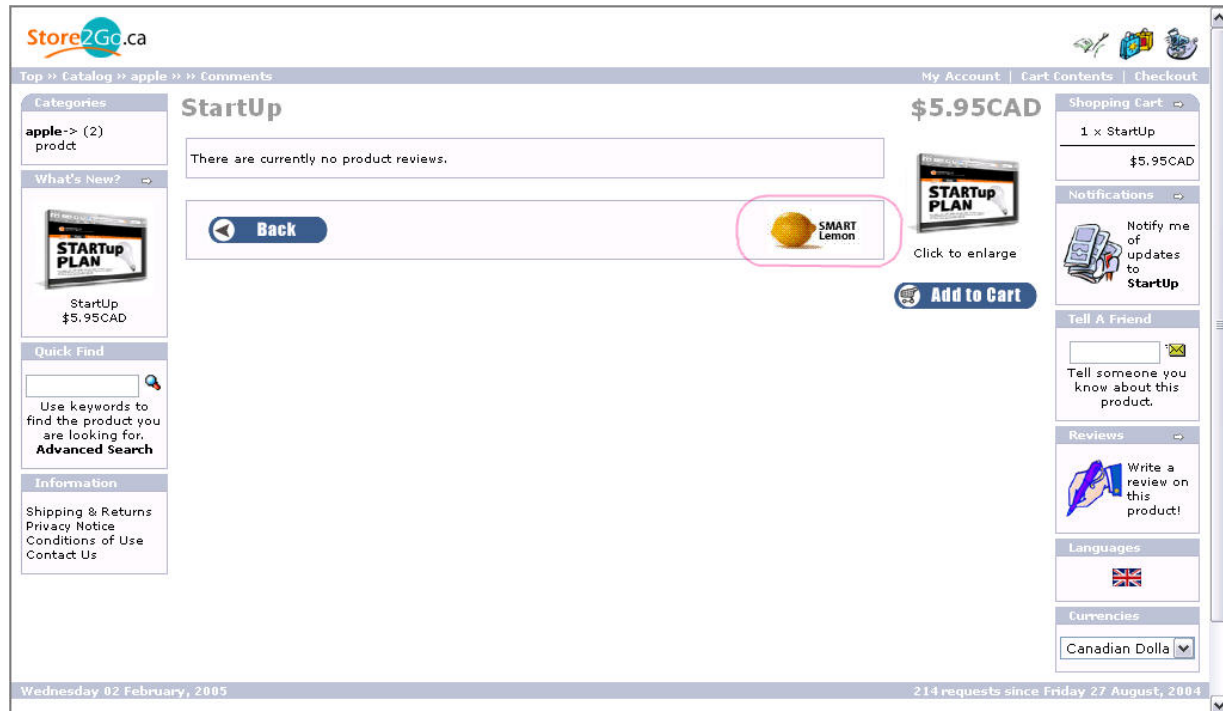

14.2 To customize buttons:

- 1) Please make sure that your new buttons are in **.gif** format
- 2) Create 3 directories english/images/buttons/ under <yourStore2Go>/images/ directory through your FTP account

e.g. if you would like to replace  **Write Review** with , please rename your button to button_write_review.gif and upload it to <yourStore2Go>/images/english/images/buttons/ directory through FTP.

- Please replace <yourStore2Go> with your own Store2Go location.
