15. Stylesheets

15.1 Customizable Stylesheets (CSS)

*** Please contact Mecca ehosting.ca to unlock your stylesheet.css of your store before you proceed

*** After the stylesheet.css is unlocked, please make a backup copy before you edit it, since **we will not be responsible for any restoration of the stylesheet.css after the stylesheet is unlocked**.

Here are some of the examples of how you can change the store appearance:

- **Edit background colour**
  1) Use an FTP program to login to your FTP account
  2) go to your Store2Go directory and search for stylesheet.css
  3) edit "stylesheet.css"
  4) change #ffffff beside "background:" under the "BODY" section to your favorite color

- **Edit text font / color / size of your info box heading**
  1) Use an FTP program to login to your FTP account
  2) go to your Store2Go directory
  3) edit the "stylesheet.css"
  4) update the "TD.infoBoxHeading"

  ** Not all fonts are be supported in some internet browsers

- **Below is the reference of the class name:**
  You can refer to this table if you want to edit your stylesheets:

1 – BODY   **2** – infoBoxHeading   **3** – headerNavigation   **4** – footer   **5** – smallText

Modules

- should you wish to have additional modules add-on to the store2go, please send us a request with the modules that you would like to include attached and send it to support@mecca.ca. For service charge, please refer to our Store2Go term of use for details.
