8. Modules

8.1 Payment

- Below is a list of different payment module/gateway providers that you can use to process the payments from your clients.
- Before selecting for a desired payment gateway provider, please make sure that you have an activated merchant account with the provider.*
- To enable, simply click on the install button on the right. To disable, click on the remove button on the right.
- When enabling a payment gateway, please make sure to update your company information. **(Please do not use default information!)**

    *Store2Go does not process payments for you automatically or online. You are responsible to arrange for a service to complete your payment processes.

Tax Class:
Select "GST Shipping Class" as your Tax Class. Depending on where your customers live, by selecting "GST Shipping Class", the receipt will indicate the appropriate tax on the shipping fee. If your customers live outside of Canada, no shipping tax will be applied. If your customers live within Canada, the appropriate provincial tax (GST/PST/HST) will be applied to the shipping fee.

Shipping Zone:
 The permission to allow only a certain area to use this payment of shipping. Areas other than the selected area are restricted to use this form of payment.

8.3 Order Total

- The information you would like the receipt to display.
- "Sort Order" refers to the order in which you want the information to be placed.
